

## **Call for Proposals under Competitive Grants under NICRA Project**

National Innovations in Climate Resilient Agriculture (NICRA), a multi-institutional and multi-disciplinary network project of Indian Council of Agricultural Research being implemented from 2011 onwards. In addition to Strategic Research on climate resilient agricultural technologies involving a network of ICAR Institutes, the project has a Competitive Grant Component to fund innovative and novel research ideas that address climate variability and climate change in agriculture and allied sectors. Interested scientists from recognized institutions in India are invited to submit proposals by email ([nicra.cgc2018@gmail.com](mailto:nicra.cgc2018@gmail.com)) or post on or before **15-Mar-2018**. For detailed instructions and guidelines for submission, visit [www.crida.in](http://www.crida.in).
