To: The Directors of Agriculture / Horticulture / Animal husbandry/ ATMAS/ SAMETIs of ALL States & UTs

Sub: Model Training Course on "Participatory Natural Resource Management for sustainable Agricultural Productivity in Rainfed Areas" from October 4-11, 2017 - reg.
Ref: F.No:13(1)/2017-ET dated 23rd June, 2017 of DOE, Ministry of Agriculture GOI.

Dear Sir,

As you are kindly aware, dry lands are characterized by poor natural resource base resulting in low productivity. Soils in drylands are generally shallow and of low fertility. Similarly, the rainfall is highly erratic. Therefore conservation and management of the resources like soil and rainwater assumes great significance for sustainable rainfed agriculture. While soil conservation is important for sustainable agriculture, conservation of rainwater in situ, water harvesting and utilization are important components of efficient rainwater management.

Keeping in this view, ICAR-CRIDA is organizing DOE sponsored Model Training Course on "Participatory Natural Resource Management for sustainable Agricultural Productivity in Rainfed Areas" from October 04-11, 2017. The present training programme will focus on natural resource management through farmer participatory and community-based approaches that help in enhancing crop yields and productivity in a sustainable manner.

The total number of participants will be limited to around 25. You are therefore requested to kindly send nominations of two or three suitable persons at the earliest in the prescribed format (copy enclosed) to the Head, TOT of this Institute by September 2, 2017. The acceptance of the nominations will be communicated by September 10, 2017.

Boarding and lodging facilities will be provided free of cost to the selected participants from the budget available for the purpose. Besides, TA for to and fro journey on actual basis as per their entitlement restricted to AC II tier train /bus will be reimbursed on production of relevant receipt/tickets.

This Institute is located at a distance of 10, 16 and 20 km from Hyderabad and Secunderabad Railway Stations and Airport, respectively at Santoshnagar, near I.S. Sadan on Nagarjuna Sagar Road, Hyderabad - 500 059.

Looking forward for your early action and co-operation in this regard.

Thanking You,

Yours sincerely,

(K.SAMMI REDDY) 19/7/17
